INGREDIENTS · INGREDIENTES

Water, Potassium Alum, Hydroxyethyl Acrylate/Sodium Acryloyldimethyl Taurate Copolymer, Cetearyl Alcohol, Paraffinum Liquidum, Cetyl Alcohol, Stearyl Alcohol, Leuconostoc/Radish Root Ferment Filtrate, Gluconolactone, Sodium Benzoate, Sodium Hydroxide, Fragrance.

THE HONEST NOTE · LA NOTA HONESTA

Potassium alum is an aluminum salt, so we never print “aluminum free” on anything. It is a large crystal that stays on the surface of the skin and stops odor bacteria — not the small, absorbable aluminium chlorohydrate that antiperspirants use to plug the sweat duct. Your customers who read labels will check this, and we would rather they find us telling the truth. [El alumbre de potasio es una sal de aluminio, por eso nunca imprimimos «sin aluminio». Sus clientes lo van a verificar.](#)
